

V2W Software Solution Pvt Ltd

Village to World - Empowering Rural Talents
Business First, Technology Second, People Always

Helping Businesses Growth with Practical Digital Transformation

V2W Software Solutions is a Business Transformation company helping organizations improve efficiency, strengthen financial control and make better business decisions.

***V2W (Village to World)** was founded with the mission of 'Empowering Rural Talents'. We combine business consulting, finance expertise and digital engineering to deliver practical solutions that create measurable business value.*

Founded by a consultant with over 20 years of global experience, including 12 years leading enterprise digital transformation projects in the USA, V2W combines international consulting standards with Indian engineering excellence to deliver practical, scalable and business-focused solutions. Today, we proudly support customers across **India, UAE, Qatar, Saudi Arabia and the USA**. We believe successful digital transformation starts with understanding your business—not the software.

Why Businesses Choose V2W

Business Consulting: We understand your business processes before recommending technology.

Finance-led Digital Transformation : Our ERP and finance implementations are designed around financial accuracy, compliance and business growth.

Enterprise Technology: We build integrated business platforms connecting Sales, Finance, Inventory, Procurement, Projects, HR and Customer Service.

AI-enabled Engineering: We develop modern business applications, automation and integrations that improve productivity and support future growth.

Our Services

ZOHO Engineering & Implementation Services

We implement Zoho applications around your actual business process. Our team handles requirement study, solution design, configuration, customization, migration, integration, user training and post go-live support.

- End-to-end **Zoho One** implementation
- **Zoho CRM**, sales pipeline, quotation and customer lifecycle management
- **Zoho Books, Zoho Inventory**, billing, purchasing and warehouse processes
- **Zoho Projects, timesheets**, resource tracking and customer billing
- **Zoho People, Zoho Payroll**, attendance, approvals and employee self-service
- **Zoho Analytics** dashboards for management visibility
- **Zoho Desk** and FSM for support and field service operations
- **Zoho Creator** for custom workflows and low-code business applications

Zoho Enabled Financial Services

At V2W, every Zoho Books and Zoho Finance implementation is led by a CA Finalist and Zoho Books Certified Consultant, ensuring that the solution is designed with financial accuracy, statutory compliance and business best practices at its core.

Our team understands the accounting and taxation requirements of businesses operating across UAE, Qatar and India, enabling us to configure finance systems that support compliant business operations from day one.

- Zoho Books and Zoho Finance Suite implementation
- Chart of Accounts design and opening balance setup
- UAE VAT, Qatar taxation requirements and Indian GST configuration Bank reconciliation, payment workflows and approval controls Financial reporting, MIS and management dashboards
- Managed book keeping, month-end closing and audit support.
- Hassle-Free Migration from Tally, Xero, iPix and Other Accounting Platforms to Zoho

Books

AI-enabled Engineering and Custom Applications
